## Why Choose Dentist Dental Savings Program “DDS”?

Over the years, Dr. Murray has recognized that many of his patients without insurance tended to choose a less than optimal treatment plan due to the lack of the financial subsidy provided by insurance. This plan was developed to assist these patients by starting off on a more equal basis when compared to those with dental insurance. As a result, even those with insurance find this savings plan to be a benefit as well.

### Benefits of Service

### Provisions of Dentist Dental Savings Program

- The DDS Program is not dental insurance. It does, however, allow you to prepay for your preventative dental x-rays and exams, thereby providing a 30-40% reduction on your dental bills.
- The cost of the Dentist Dental Savings Program is essentially the same as for an initial examination with x-rays.
- The DDS program is for a single patient only and is not transferable.
- Benefits are provided for one year from the date of enrollment.
- It is up to the individual patient to make sure they receive their cleaning and exams.
- Payment is due at the time treatment is rendered.
- Any service not listed in this document is available at the regular price.
